Results of Examination

BCSO-3.5 and CW-8A were previously physically and microscopically examined by this Laboratory. Marks of value were found, and it was concluded that these items may be suitable for identification with other firearm-related evidence.

In this examination, CW-8A was microscopically compared to BCSO-3.5. Based on an agreement of class and individual characteristics, it was determined that CW-8A and BCSO-3.5 were fired by the same firearm.

BCSO-3 was not utilized in this examination.
